THE COW PUNCHER

ROBERT J. C. STEAD

Copyrighted, Canada, 1918, By The Munsion Book Co. Ltd., Toronto. Printed By Special Arrangement.

(Continued.)

In the darkness of her own shadow she set her teeth for that answer. It was to be the crowning act of her self-renunciation. She could not allow him to stay where he was, even in uniform. The danger was two-fold. In a moment of weakness he would probably shoot her, and in a moment of weakness she would probably disclose her love. And if Dave should ever marry her he must win his first "You had better get out of here, and enlist in England," she told him calmly, although her nails were biting her palms. "You will get quicker action that way. And when you come back you must see Irene, and you must learn from your own heart whether you really loved her or not. And if you did not, then—then you will be free to—to think of some other woman."

"I am afraid I shall never care to think of any other woman," he answered. "Except you. But some way you're different. I don't think of you as a woman, you know; not really, in a way. I can't explain it; Edith, but you're something more—something better than all this."

"I assure you I am very much a woman."

But he had sprung to his feet. "Edith, I can never thank you enough for what you have said to me tonight. You have set me free. I am going to follow your advice. There's a train east in two hours and I'm going on it. Fortunately my property, or most of it, has dissolved the way it came. I must pack a few things, and have a bath and shave and dress."

She moved toward him with extended hand. "Good-bye, Dave," she said. "He held her hand fast in his. "Good-bye, Edith. I can never forget I can never say—good-bye to you. You have set me free. I am going to follow your advice. There's a train east in two hours and I'm going on it. Fortunately my property, or most of it, has dissolved the way it came. I must pack a few things, and have a bath and shave and dress."

CHAPTER XXI.

When Irene Hardy pursued Dave from the house the roar of his motor car was already drowned in the hum of the city streets. Hatless she ran the length of a full block; then, realizing the futility of such a chase, she returned with almost equal haste to her home. She burst in and discovered Edward holding a bottle of smelling salts to the nose of her mother, who had sufficiently recovered to sit upright in her chair.

"What is the meaning of this?" she demanded of Edward. "Why did he threaten to shoot, and why did he leave as he did? You know; tell me."

"I am sure I wish I could tell you," said Edward, with all his accustomed easiness. In truth Edward, having somewhat recovered from his fright, was in rather good spirits. Things had gone better than he had dared to hope. Edward was eliminated, for the present at any rate, and now was the time to win Irene. Not just now, perhaps, but soon, when the shock of her interrupted passion turned her to him for companionship.

She stood before him, flushed and vibrating, and with flashing eyes. "You're lying, Edward," she said deliberately. "First you lied to him and now you lie to me. There can be no other explanation. Where is that gun? He said I would know what to do with it."

"I have it," said Edward, partly carried off his feet by her violence. "I will keep it until you are a little more reasonable, and, perhaps, a little more respectful."

"Irene," said Mr. Hardy, sharply, "what way is that to speak to Mr. Edward? You are out of your head."

Dr. Williams' Pink Pills for Pale People.

child. Such a scene, Mr. Edward. Such a scene in my house! That cow puncher! I always knew it would come out some time. It is breeding that tells, Mr. Edward. Oh, if the paper could learn of this!"

"That's all you think of," Irene retorted. "A scene and the papers. You don't trouble to even wonder what was the occasion of the scene. You and this—this biped, are at the bottom of it. You have been planning to force me along a course I will not go, and you have done something horrible—I don't know what—to cause Dave to act as he did. But I'm going to know. I'm going to find out. You're afraid of the papers. I'm not. I'll give the whole story to the tomorrow. I'll tell that you insulted him, Edward, and how you stood there, grinning, gaped toward under the muzzle of the gun. How I with I had a photograph of it," she exclaimed, with a little hysterical laugh. "It would look fine on the front page." She broke into peals of laughter and rushed up the stairs.

In the morning she was very sober and pale, and marks of distress and sleeplessness were furrowed in her face. She greeted her mother with cold civility, and left her breakfast untouched. She gave part of her morning to Charlie; it was saving him to have her go to the room where she could pour affection. Then she went to the telephone. She called Dave's office; nothing was known of Mr. Eliden; he had been working there last night; he was not down yet. She called it up again, and there was no answer. Then, with a bright thought, she called the garage. Mr. Eliden's car was out; had not been in at all during the night. Then she tried a new number.

"Hello," that the office of The Call? Will you let me speak to—"

Her mother interrupted almost frantically. "Irene, you are not going to tell the papers? You mustn't do that. Think of what it means—the disgrace—a shooting affair, almost, in our home. Think of me, your mother."

"I'll think of you on one consideration—that you explain what happened last night, and tell me where Dave Eliden is."

"I can't explain. I don't know. And I don't know."

"And you don't want to know. And you don't care, so long as you can keep it out of the papers. I do. I'm going to find out the facts about this, if every paper in the country should print them. Hello? Yes, I want to speak to Miss Morrison."

In a few words she explained Dave's sudden disappearance, a striking incident of all but vital facts. Bert Morrison was all sympathy. "It's a big story, you know," she said, "but we won't think of it that way. Not a line, so far as I am concerned. Edith and I will see to it. A sort of adopted sister to Dave. She may know more than any of us."

But Edith knew absolutely nothing; nothing, except that her own heart was thrown into a turmoil of emotion. She spent the day and the evening down town, rotating about the points where Dave might likely be found. And the next morning she called on Irene Hardy.

In spite of all her efforts at self-control, she trembled as she pressed the bell; trembled violently as she waited for the door to open. She had never seen Irene Hardy; it was going to be a strange experience, introducing herself to the woman who had been her father's mistress, and who had, apparently, proven so unworthy of that preference. She had difficult things to say, and even while she said them she must fight a battle to the death with the jealousy of her natural womanhood. And she must be very, very careful that in saying things which were hard to say she did not say hard things. And, most difficult of all, she must try to pave the way for a reconciliation between Dave and the woman who stood between her and her happiness.

Irene attended the door, as was her custom. Her eyes took in Edith's face and figure with mild surprise; face and figure with mild surprise. Edith was conscious of the process of a quick, intelligent endeavoring to classify her;—solicitor, music teacher, business girl? And in that moment's pause she saw Irene's eyes, and a strange communion of feeling surged through her. There was something in those eyes that suggested to Edith a new side in Dave's nature; it was as though the blind had suddenly been drawn from strange chambers of his soul. So this was the woman Dave had chosen to love. No; one does not choose whom one will love; one loves without choosing. Edith was conscious of that; she knew that in her own life. And even as she looked into the eyes of the woman who had been her father's mistress, she became aware of a subtle attraction gathering about her; she felt something of that power which had held Dave to a single course through all these years. And suddenly a great new truth was born in Edith's mind. Suddenly she realized that if the steel at any time prove unfaithful to the magnet the fault lies not in the steel, but in the magnet. What a change of view, what a reversion of all accepted things, came with the realization of that truth which roots down into the bedrock of all nature!

(To be continued.)

Canada and Daylight Saving

In answer to questions in the house of commons recently, Sir George Foster, acting premier, said that the government did not contemplate introducing a daylight saving bill this session. Sir George added that the question of daylight saving was one entirely for towns and villages which wished to adopt it.

End of Kitchener's Army

"Kitchener's Army" has almost been dissolved. The war office announces that there are approximately 24,000 soldiers ready for demobilization in the British Army, 12,000 of whom are among those who have volunteered for further service. Lack of shipping is holding up the demobilization of the remaining men.

Bad Business

The theory that it is better to do less business at higher prices than more business at lower prices is not good for the country.—Buffalo Enquirer.

A person usually begins to lose height at the age of fifty, and at the age of ninety he has lost about one and a half inches.

W. N. U. 1313

Want Air Supremacy

German Constructing Giant Commercial and Passenger Airships

The Germans are working feverishly to construct giant commercial and passenger airships and airplanes, according to a report from Romania. The first trials were successfully held of two monster machines above Lake Constance.

The airship Nordstern, greatly surpassing the Zeppelin Bodensee in size, capacity and power, flew for a half hour around the lake with a crew of seven men. At the same time a new giant hydroplane, whose motors totalling 1,000 horse-power, made aerial trips with 20 passengers.

Both machines were recently completed at Friedrichshafen, where the airship factory is said to have doubled in size since the armistice, and other monsters have already been begun. The Germans are concealing the results of the trials, and no reports of them are published in the press.

What's Wrong With Canada

A Few Suggestions That Might Help To Improve Matters

Seeking an answer to the above question, Richard Irving, in the Farmers' Advocate, suggests that before we can make Canada an ideal and a cheaper place to live in, we may have to have:

More overalls and fewer dress suits.

More clay bricks and fewer gold bricks.

More alarm clocks and fewer "next morning" headaches.

More aprons and less décolleté.

More producers and fewer consumers.

More democrats and fewer plutocrats.

More bank accounts and less oil stock.

More real work and fewer shortcuts to wealth.

More cheap coal and fewer diamonds.

More old-fashioned Christianity and less class snobishness.

More real anxiety to assist humanity and less getting while the getting's good.

Take the Boys Into Partnership

A farmer out in Indiana, named Robert C. Cain, has formed his family into a firm, known as Messrs. Cain & Company, Unlimited, with a capitalization of \$17,000. It is difficult to know why he chose the word "Unlimited," instead of "Limited," but says the Farmers' Sun, of Toronto, apart from that the principle of taking the boys and girls into partnership on the farm is an excellent one. In the past too few of our farmers have been willing to give the young people a part in the operations of the farm, and this has been a factor in the exodus to the cities. Having a stake in the farm is a big asset.

DOUBLE BEAUTY OF YOUR HAIR

"Danderine" creates mass of thick, gleamy waves

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft, glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents. Then moisten a soft cloth with the "Danderine" and draw this through your hair, taking one small strand at a time. Instantly, yes, immediately, you have doubled the beauty of your hair. It will be a mass, so soft, lustrous and easy to do up. All dust, dirt and excessive oil is removed.

Let Danderine put more life, color, vigor, and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair and help your hair to grow long, thick, strong and beautiful.

Medicine Hat's Industries

One of the most interesting industries in the province of Alberta is that of manufacturing lined oil cakes, etc. from flax as carried on by the Alberta Lined Oil Company, Limited, at Medicine Hat. This mill consumes large quantities of flax seed and provides a ready and profitable market for Southern Alberta flax. The by-product of lined oil crushing, namely oil cake or oil cake meal, is sold by this company under the brand of "Pride of Alberta," and is one of the most satisfactory stock foods on the market. It is also used to great advantage by stockmen.

A Londoner made a wager that he could cook a plum-pudding ten feet beneath the surface of the Thames, and won the bet by placing the pudding in a cage and putting the whole in a sack of lime. The heat of the lime, slacking when it came in contact with the water, was enough to cook the pudding in two hours.

W. N. U. 1313

Trees for Roadsides

Wind-Break to Prevent Early Frosts And Other Evils

Newer Canada will learn as older parts of the Dominion have had to learn the value of trees both in wood areas and on the roadside. Dr. W. W. Andrews recently addressed a gathering of members of the Kiwanis Club at Regina on tree planting in the country planning.

The doctor dealt very fully with the question of planting trees on either side of the main roads in Saskatchewan, and made the positive statement that if such were done, autos could be used for twelve months in the year instead of about half that length of time as is the case now. In order to do this, the gauge of sleighs must also be enlarged, a matter which has been mooted for some time.

A line of trees on either side of the road would prevent the drifts from congregating on the highway itself, and thus, where the sleighs and autos would run, the ordinary fall of snow would obtain. The trees, forming a wind-break, would also keep the way-farer warm.

The value of trees from the viewpoint of keeping water in the ground was also made apparent by the speaker, and again as a wind-break to prevent early frosts and other evils which are the enemies of crops.

He Has Tried Them And Got Results

WHY A. J. MACLEOD PRAISES DODD'S KIDNEY PILLS

Nova Scotia Man Gives the Reason Why He Advises Sufferers From Kidney Trouble to Use Dodd's Kidney Pills.

River Dennis, N.S., April 26th. (Special).—"Dodd's kidney pills helped me wonderfully. My back is better and as I haven't taken any other medicine since starting to take them, they must have done me a lot of good."

In these words, Alexander J. MacLeod, a well-known resident here, gives his reason why he praises Dodd's Kidney Pills and why he says, "I would advise anybody who has kidney trouble to give Dodd's Kidney Pills a trial."

The reason Dodd's Kidney Pills are popular all over Canada is that people have tried them and found them good. Dodd's Kidney Pills have been in use in Canada for more than thirty years. They have been used by thousands of people suffering from various forms of kidney trouble, such as rheumatism, dropsy, sore back, weakness, diabetes and Bright's disease.

Ask any one of these thousands to give you his opinion of Dodd's Kidney Pills. It is on the relief afforded sufferers from kidney trouble that Dodd's Kidney Pills have built their reputation as the "miraculous remedy" for sick kidneys.

Relics of Rome to be Invaded

Peasants Plan to Plant Cabbages On The Estate of Emperor Hadrian's Villa

The Vissocchi decree, authorizing under certain conditions, the invasion of uncultivated land by the peasants is having an unlooked-for sequel at Tivoli, where the remains of the Emperor Hadrian's villa stands.

Visitors to this superb relic of Imperial Rome, will learn with something approaching horror that the peasants of the countryside have formed the plan of invading the site and planting cabbages and artichokes in the precincts of the famous monument. The villa is government property, and the ruins themselves are guarded, but all the adjoining land ought equally to be left free for possible future excavations, which would doubtless reveal archaeological and artistic treasures of the first importance.

The Archaeological association of Rome has addressed an urgent letter to the minister of public instruction and another to the under-secretary for fine arts, and the latest news is that steps will be taken at once to prevent any damage to the famous villa.

Postpone Cattle Sale

Mammoth Pure-Bred Sale Will Now Be Held on June 2 and 3

A conference between the board of directors of the Saskatchewan Cattle Breeders' Association and J. G. Thompson, commissioner of livestock for the province, was held for the purpose of changing the date and arranging other details of the mammoth pure-bred cattle sale that is to be held in Saskatoon in June. The date originally set was for May 26-27, but owing to the lateness of spring it was thought that the farmers and livestock raisers in the northern part of the province would not be through the seeding before June 1. Consequently the date was changed to June 2-3, when the sale will be held at the Saskatoon Exhibition Grounds.

Broadening our Teaching

The more freedom we make them the more we encourage the individuality of the child, the more guidance children will need from their teachers and the greater the need for courses of study planned with mature judgment and methods of instruction devised and used with a sympathetic understanding of children and a foresight which looks to the world beyond childhood.—London Daily Telegraph.

A woman is really in a hurry if she says goodbye that way.

Sheep in Saskatchewan

Marked Increase in Number of Small Herds, Says Commissioner

"Saskatchewan has not yet one-tenth as many sheep as we should have in the province," said J. D. Robertson, livestock commissioner for Saskatchewan, in speaking of the sheep breeding situation. "As far as numbers are concerned we come very low among the provinces of Canada. The small province of Nova Scotia has almost twice as many as the large province of Saskatchewan. However, breeders and farmers in general are agreed that the sheep industry of the province is in a thrifty condition and that satisfactory profits can be made from the keeping of sheep."

Until the past four or five years sheep breeding was confined almost entirely to the southwestern portion of the province, where they were maintained on large ranches. There has been a very marked increase in the number of sheep being kept in small flocks upon farms. This addition is not confined to one part of the province, but flocks are being started from the north to the south. A striking proof of how beneficial this increase in the number of farm flocks has been to the pure bred sheep business was shown at the sheep sales last fall, when large numbers of pure bred rams were sold at prices very satisfactory to farmers throughout the province who desired to secure flock leaders for their small flocks. If the present prices continue there is bound to be a strong and steady demand for high class, pure bred animals for many years to come. The factors which have retarded the increase of the sheep in this province in the past were unsatisfactory market prices, cost of wire fencing and losses from coyotes and sheep-killing dogs.

The first of these factors has been remedied. The co-operative marketing of wool through the co-operative branch of the department of agriculture has ensured the sheep raiser that he will get the utmost prices possible for his wool. Very satisfactory prices have been received by farmers who market their wool through this branch.

Hideous Irish Record

Thirty-Five Persons Murdered in Little More Than Year

A return of the outrages committed in Ireland since January, 1919, shows that 30 police and soldiers and five civilians have been murdered and 81 wounded or shot at. There were 426 raids for arms and the robberies total 1,089. Of the number reported, 528 took place in Munster, 134 in Connaught and 269 in Leinster.

Mrs. Bell, widow of the late Alan Bell, the resident magistrate who was assassinated near Ballbridge, Dublin, has lodged a claim for \$300,000 compensation for the murder of her husband.

Getting Something For Nothing

What can be done to diminish the modern willingness, even anxiety, to get something for nothing? If a man can "beat" a railway conductor, he is delighted. Well-dressed women constantly annoy the customs inspectors by smuggling. Children accept as a matter of course the slavish attentions of over-worked mothers. At the concert the encore fiends wear out singers and audience. The whole community, apparently, will "bite" at a "get-rich-quick" scheme. Yet better than any people in the world, we know that we pay for what we get, and get what we pay for. Let us be content with that. It is the only manly way to face life.

Steady Increase in Price

Prices of the commodities of life continued their steady march upward in the past month, increases being recorded in the cost of living branch of the department of labor in the prices of all commodities of general consumption except for a seasonal decrease in the price of eggs, butter and milk. Sugar advanced two cents per pound and potatoes thirty cents per bag. An average family budget in sixty cities of the Dominion is compiled by the department at \$15.98 for the month of March, as compared with \$15.77 in February, \$13.07 in March, 1919, and \$7.68 in March, 1914. A sharp increase in the price of building materials and metals is noted.

Good Prospects for Crop

"I consider the prospects for the coming season on the land are the best in several years," says F. W. Crandell, of Calgary, one of the largest individual farmers in Alberta.

Mr. Crandell states that he expects to put about 10,000 acres into crop this year. The moisture conditions, he says, are ideal. There has been a heavy fall of snow which has gone off gradually, furnishing moisture to the soil.

This opinion is shared by experienced farmers in all parts of the province, and all indications are favorable to a heavy crop this season.

It has been positively ascertained by expert chemical analysis that rice contains more nutritive elements than any other grain. It will sustain life better and longer than any other cereal—a fact well known throughout the eastern countries from time immemorial.

Labor troubles are often caused by men who are trying to make a living without work.

W. N. U. 1313

Prince Edward's Alberta Ranch

Will be of Great Importance to the Business of Stock-Breeding in Western Canada

The plans of the Prince of Wales for his ranch in Alberta are described by the agricultural correspondent of the London Times. Its 7,000-acre he says, are entirely under grass and at present it is without suitable or adequate buildings. The soil is a rich alluvial loam, and the grasses it carries are luxuriant and provide good feeding for stock in summer and winter. A certain area is moved every year to provide hay for young stock in winter, but the greater part is grazed throughout the year. The climate is severe, but cattle and horses can be out-wintered with safety and advantage. The summer production of grass exceeds the present requirements of the stock on a properly managed ranch, and the surplus, then withered and dry, but of about the same feeding value as English hay, suffices to carry the animals through the winter. The climate renders this simple system of "haymaking" completely practicable in Alberta, and only the needs of young stock housed in winter have to be provided in the elaborate British method.

Although there is no arable land within the limits of the E.P. ranch at present, the acquisition of cultivated land is contemplated, with a view to making the ranch better adapted to the requirements of the improved classes of cattle and sheep it is proposed to introduce. With the same object, suitable buildings and fencing are to be erected in due course.

The ranch is to be stocked, with cattle, horses and sheep. Hitherto horses have been bred chiefly, but cattle-raising will form the main feature under his royal highness' ownership. The immediate supervision of the ranch will be entrusted to Professor Carlyle, who, with Mr. Lane's approval, will add this task to his managerial duties on the latter's famous Bar U ranch of 120,000 acres. The stock to be sent out from England will comprise shorthorn cattle, thoroughbred horses, Dartmoor ponies, Dartmoor Arab crosses, and Shropshire and Kerry Hill (Wales) sheep. The consignments of cattle, ponies, and pony-Arab crosses can be supplied mainly from the Prince's farm in Cornwall and Devon, and selections of the thoroughbred horses have already been made at Newmarket, while the close-wooled sheep of Shropshire and North Wales are preferred because of their proved suitability for the climate.

The breeding of shorthorn cattle will be the principal enterprise, and the royal owner is fortunate in being in a position to supply from his noted here in England most of the shipment of about a score of highly-bred Cruickshank shorthorns that are to form the nucleus of the new herd. The ranch is capable of carrying about 700 head of cattle in addition to other stock. At first the herd will consist principally of the ordinary grade cattle of the district, but as the pure bred strains multiply and prosper the commoner kinds will be displaced by registered shorthorns of the best families and types.

Don't Neglect a Rheumatic Pain

Go after it with Sloan's Liniment before it gets dangerous

Apply a little, don't rub, let it penetrate, and—good-by twinges! Same for external aches, pains, strains, stiffness of joints or muscles, lameness, bruises.

Instant relief without mussiness or soiled clothing. Reliable—the biggest selling liniment year after year. Economical by reason of enormous sales. Keep a big bottle ready at all times. Ask your druggist for Sloan's Liniment. 35c, 70c, \$1.40. Made in Canada.

China's Forests Signed Away

Vast Areas Mortgaged to Secure the Wasted Loans From Japan

One need but run through the list of China's recent loans from Japan and be told that the sums of between \$200,000,000 and \$225,000,000, loaned much has gone into the hands of corrupt officials and the military governors, and by them wasted instead of being used for demobilization of troops and for the constructive purposes declared.

The city of it all, says the Asia Magazine, is emphasized when it is seen that for a paltry \$15,000,000 loan China has signed away a lien on all her forests in the two northern provinces of Heilungkiang and Kirin, equal in area to the combined area of all the United States touching the Atlantic seaboard from Maine to, but not including, Florida.

SPRING FEVER

Following Colds, Grip or Flu, This, Watery or Poisoned Blood

(By Dr. VALENTINE MOTT.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxins (poisons) stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic as Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol or wild roots and barks.

TELEPHONE, ORE.—Ever since I can remember Dr. Pierce's medicines were used in our family at home and they never failed to give good results. The Golden Medical Discovery was used as a tonic and blood purifier and for hemorrhoidal trouble and it proved excellent. I have personally taken it for blood and nerve troubles and the "Parasitic Prescription" to build up when I was run down and they were both very beneficial.—Miss OLIVER MITCHELL.

W. N. U. 1313

Farm Land Boom To Fill Every Farm

Move to Encourage Farmers to Take Up Vacant Lands

The executive of the Saskatchewan Farm Settlement Association has completed plans for the biggest conference ever held in the province of Saskatchewan to take place in Saskatoon May 25 to 28 inclusive. Under the slogan of "A farmer on every vacant farm inside of five years," the officials of the association are aiming to make this year's conference a record breaker and one which will go a long way towards encouraging farmers to take up the vacant land in the province.

The premiers of the four western provinces have been invited to attend this conference, as well as the governors of the Northwestern, Central and Border States. It is intended as a get together meeting of the people most vitally interested in the forward movement in agriculture and promises to bring about satisfactory results.

At the conference several subjects of serious import to the farmers of the province will be discussed by experts who have already promised to attend. Among the subjects will be dry farming, agricultural credits at a low rate of interest and mutual co-operation between large land owners in assisting to place farmers on the vacant land of the province.

J. H. Haslam, who for years has been one of the most energetic workers in the cause of the west, is the moving spirit in the organization of this conference. Mr. Haslam, who has a large clientele in the United States, has been assured that a large number of well-to-do farmers from across the border desire to investigate farm land prices in Saskatchewan with the end in view of establishing themselves here. Prices of farm lands in the Dakotas, Iowa and the northwestern states have increased to such a level that farmers find it quite profitable to sell out and re-invest their money in the best wheat growing lands in the world.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California Syrup of Figs" only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear. "Mother! You must say 'California'."

Canada's Population

Next Census Likely to Show A Population of Considerably Over Nine Million

Canada's next census is likely to show a population or the Dominion of over nine million people. Figures recently published and based on departmental estimates, gave the population of the Dominion as 8,835,102. While these estimates in the past have proven approximately correct, it is to be pointed out that they covered a period which ended on March 31, 1919 nearly a year ago. Since that time there has been a great influx of people to Canada.

The major portion of Canada's overseas forces around the four hundred thousand mark, has returned to Canada since that date, and immigration from Great Britain, which languished during the war years, has revived to a considerable extent. There has also been a considerable movement from the United States. With the return of such a large portion of the male population from overseas the natural increase should be much in excess of the period from 1914 to 1919. With all these factors considered, it would not be surprising if even the estimate of nine millions should be greatly exceeded.

Minard's Liniment Relieves Neuralgia

Men Who Have Risen

There was once a small grocer in a back street in Bolton. If you want to know who he is today—ask Lord Leverhulme.

There was once a shop assistant in Devonshire. If you want to know who he is today—ask Lord Devonport.

There was a very small grocery in Glasgow, in which the grocer slept under the counter. If you want to know who he is today—ask Sir Thomas Lipton.

It sometimes happens that a man is called the master of the home because he does not know when to come home.

German-Irish Parallel

Both Suffering From Their Own Revolutionary Misdeeds

Ireland and Germany are both suffering from their own revolutionary misdeeds. Both need a strong hand, if they are not—as the result of the new phase of the Irish situation arising out of the Cork murders—to land themselves in the predicament of Russia, under Bolshevism. In Russia over 30,000,000 people have met their death since August, 1914, and about 20,000,000 of these have lost their lives through civil war, famine and disease. Last year in Germany there was a heavy death-roll through civil war. When we come to Ireland the Sinn Fein revolutionaries between May, 1916, and December last have been responsible for 1,529 outrages, including murder, highway robbery, incendiarism, and firing into dwellings. In Ireland there is a similar condition of affairs, similar, but on a smaller scale, to that existing in Germany and Russia, yet there is no excuse for after-war revolution in Ireland. Ireland has proffered more than any other country between 1914 and today.

That Faded Frock Will Dye Like New

"Diamond Dye" Freshen Up Old, Discarded Garments

Don't worry about perfect results. Use "Diamond Dye," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's gowns, feathers, draperies, coverings—everything!

The Direction Book with each package tells how to dye diamond dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

New Fuel Hotter Than Coal or Oil

Valuable for Steamship and Battleships, Giving Wider Cruising Radius

A new fuel fluid of greater heat value per unit than either coal or fuel oil, and hence particularly valuable as a fuel for steamships and battleships, giving them a wider cruising radius, was described in a paper by Jerome Alexander, a New York chemist, which was read by Dr. Harry H. Holmes, of Oberlin College, chairman of the National Colloid research council, before the American Chemical Society.

The paper declared that the new fuel utilizes coal waste and cheap tars, these ingredients being dispersed in fuel oil by colloidal action, and that the action of a certain "fixing" agent, whose nature is kept secret, results in a fuel which combines the valuable qualities for heating of both coal and oil. Peat, lignite, cellulose waste, sawdust and similar inferior fuels may be utilized in the new process Mr. Alexander declared. He said that the new fuel could be piped, stored and burned virtually as fuel oil is, and that as a fuel for steamships it is virtually double the value of either coal or the present forms of fuel oil. He also declares the new fuel is very valuable for laying smoke screens in warfare.

Weighing Grain

Sir George Foster Says Government's Attention Had Not Been Called to Elevators

In the House of Commons Sir Geo. Foster told J. P. Molloy, of Provencher, that the government was not aware of any general dissatisfaction with regard to the weights given to terminal elevators at Fort William and Port Arthur.

Individual complaints were received from time to time and these were all investigated. The board of grain commissioners had received the statement from one of the largest shippers of grain from Western Canada, to the head of the lakes. This statement said that the out-turns from this shipper's cars at Fort William and Port Arthur elevators were 100 per cent satisfactory.

Sir George stated that the only thing in the nature of a general complaint received by the board of grain commissioners was raised by the order of grain buyers. This was fully investigated in January last. While this complaint touched on the matter of weight at the head of the lakes, it was mainly a question of shortage of bonds, as applied to country buyers, that furnished the chief grounds of complaint.

Brazilian Aviation Enthusiasm

Enthusiasm for aviation has reached such a point in Brazil that importations of aircraft from Great Britain, and the United States have sent representatives to that country. These have been devoting several months to the study of the market, and have tried to win concessions from the government. With the exception of Great Britain, all the manufacturers have sent machines, and there are daily flights. Aerial service, both freight and passenger, is to be established by a resident British company, between the chief cities of the republic.

Explained

"Walter, why do you bring me this same potato day after day?"

"Well, sir, you never eat it."—London World.

Immigration Of Children to Canada

The Migration of Children From Orphanages to the Dominion

The Manchester Guardian, commenting on the report of the Canadian Government's Inspector of British immigrant children, expresses gratification that the migration of children from orphanages to the Dominion appears shortly to be resumed. Since 1916 this migration was practically suspended, the report shows.

The paper outlines the unusual opportunities offered in Canada, both to industries and agriculture, and points to the increased number of children now in institutions as a result of the war as an argument for again opening the gates of Canada to the youthful immigrant.

More than ten thousand applications for children have been received by the child-saving institutions in England since the annual migration was suspended. Many of these applications are from agricultural districts. It is said, and a large portion of the applicants are children.

Migard's Liniment Cures Burns, etc.

Imperial War Museum

Whole Collection Will Illustrate Every Phase of Nation's War Life

The Imperial War Museum, which the King will open on June 9 in London, England, will occupy the crystal palace for four years, pending the provision of a permanent home.

Exhibits will total upwards of 100,000, and the first consignments are now being moved in. The whole collection will illustrate every phase of the nation's war life, at home and in the fighting fronts.

For three years after the war cabinet had approved the formation of the museum, a committee has been collecting material in striking contrast to the casualness of previous generations, which left in London's keeping only a pair of kettle drums as the sole souvenirs of Marlborough's campaign, and five field guns and 200 cuirasses as the mementoes of Wellington's battles.

At the Palace, there will be everything from a tank to a flag day trifle. From an 18-inch naval gun to a toy mascot.

How's This?

We offer \$100.00 for any case of catarrh that cannot be cured by HALL'S CATARRH MEDICINE.

HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system.

Sold in drug stores for over forty years. Price 75c. Testimonials free.

F. J. Cheney & Co., Toledo, Ohio.

Transition in Russia

Lenine, in a recent public address, complains that the peasants are showing capitalist tendencies and are becoming a bourgeoisie. A man who cultivates a plot of land and secures a crop naturally feels that he ought to own what his toil has produced. Why should he not? Communism under trial always will break to pieces against human instinct, as it always has broken.—Buffalo Express.

DIGESTIVE TROUBLES CAUSE DISTRESS

But They Are Nearly Always Due To Thin, Watery Blood

Do not think that because your stomach is easily upset you are the victim of some serious malady. One of the most common predisposing causes of indigestion is anemia, or thin, watery blood. In fact it has become generally recognized that healthy activity of the stomach is impossible unless the blood is rich and red.

Dr. Williams' Pink Pills have been found most valuable in cases of indigestion, nervous dyspepsia and stomach weakness, just because they are a blood builder and nerve tonic. The rich, red blood they make not only imparts a healthy digestion, but carries vigor to the cheeks and lips and gives vigor to the muscles. One important point to remember is that Dr. Williams' Pink Pills contain no harmful drugs or opiates and are thus to be preferred to preparations that merely stimulate for a time. Before you begin worrying unnecessarily about your state of health, try the tonic treatment of Dr. Williams' Pink Pills. You will be surprised to see how rapidly your whole debilitated system recovers, as the new, rich blood courses through your body. Here is the statement of one person among thousands who have used Dr. Williams' Pink Pills to their own great advantage. Mrs. A. Veniot, Homford, N.S., says: "For about two years I was a great sufferer from indigestion, which seemed to carry with it a complication of other troubles. Every meal I took brought with it misery, as it was followed by pain, and sometimes nausea and vomiting. At other times gas would form in the stomach to such an extent that my heart would palpitate at an alarming rate. These conditions brought on extreme nervousness and irritability, and I found my general health so much affected that the least exertion would tire me, and I slept but poorly. I had been doctoring for several months with no result beyond slight temporary relief, when I was advised by a friend to try Dr. Williams' Pink Pills. I decided to follow this advice and got a half dozen boxes. Good results soon began to show from this treatment, and the further continued use of the pills have made me a well woman. I can cheerfully recommend Dr. Williams' Pink Pills to similar sufferers."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

Draft Horses in Canada

Demand For Best Grades Will Continue to Improve

How many big draft horses are there, either grades or purebreds? Western Canada hasn't a surplus anywhere. In Canada there has been no more breeding done than in the United States, and what breeding has been done has been mostly of the smaller class of horse. Saskatchewan alone has 100,000 worthless horses today.

According to economists, prices of horses before the war were proportionally too high, higher than almost any other class of article. During the war, prices of horses did not go up, while prices of almost everything else did. This along with a world-wide appeal for grains and meats, and the high prices being paid for these materials was responsible for the depression in the business.

There is a revolution due, however, in the horse business. The day of the cayuse is gone. These light horses are being offered by the thousands at but a few cents a pound. Some horsemen are now advocating making meat of them for shipment to the countries where horse meat is consumed. Some shipments, in fact, have recently been made.

Whether or not Canada is going to play any great part in supplying horses to Europe, there is one part she will have to play, and that is her own. "We are alone in our own boat." We cannot look to European countries for large shipments of purebred horses to build up our studs. They are busy with their own reconstruction.

Therefore, the man who can go on now and purchase a few good mares, with a view to producing horses of the big draft type, would appear to be taking advantage of the situation. Many are out after mares like these right now. They are also after suitable stallions to mate with these mares, and they seem to be having difficulty in finding them.

In view of these facts/can we not say the future of the horse industry looks bright.

The automobile people have almost advertised horsemen out of existence, says Geo. F. Mason, Union Stock Yards, Chicago.

With an idea of bringing bringing before the public the real facts of the case, there has recently been formed an association called the "Horse Association of America," a non-profit organization backed by horsebreeders representing all breeds of horses, by the saddlery and harness interests, by the horseshoe manufacturers and harness interests, by the horseshoe manufacturers and master horseshoers by the hay, grain and feed interests and by the carriage and wagon builders of America.

1. Finance.—\$250,000 will be raised the first year for this work. 2. Service trained horsemen will make full investigations along all lines, and furnish accurate material to prove the greater efficiency of the horse. 3. Publicity.—Prepare leaflets, articles, circulars and such like which are absolutely correct. 4. Shows.—Co-operate with leading fairs and exhibitions by featuring displays of educational character designed to bring out the good types of each breed. 5. Schools and Colleges.—Prepare clear, concise lessons suitable for use in schools of various grades, and colleges, which will bring out the true facts relative to the horse. 6. Legislation.—Through legislation head off anything injurious to the horse, or to the horse interests. 7. Public Speakers.—Provide for good speakers with facts and figures. 8. Paid Advertising.—Through a competent agency to educate the general public to true facts regarding the horse.

The primary aim of the organization will be, to bring prominently before the public and all transportation users the great part which the horse plays in agriculture, commerce and transportation and to work ceaselessly for the improvement and up-building to higher standards of the existing types of horses.

Airships May Yet Fly and Float

"The airship which could fly, and in fact float and submerge," is, in the judgment of Sir Fortescue Flannery, M.P., London, England, "no impossible dream of the future. This statement is quoted from a speech made at a banquet held recently by the society of Consulting Marine Engineers, and Ship Surveyors, in London, of which Sir Fortescue is president. He added that some of those present might live to see this materialize."

\$10,000 For A Carload of Flax

A carload of flax sold at Winnipeg, Manitoba, a few days ago, brought its owners a total of \$10,719.18. The car contained 1,821 bushels and sold at \$5.88 a bushel.

This is believed to be the highest price ever obtained in Winnipeg for a single carload of grain.

The British Character

Says British "Reserve" is Really Just "Shyness"

Frederic W. Wyle, American newspaper correspondent, who represented the London Daily Mail, and its associated papers in Germany, addressing the Canadian Club, said that after 20 years of thinking it over, he had at last begun to understand the British character. Mr. Wyle said that what Americans thought coldness and reserve in the Englishman was really shyness.

Mr. Wyle, who is of Irish descent, said he sympathized with the Irish race, but any deal with the Irish must be a square deal within the British empire. It was a political necessity he said, that Ireland must remain within the British Imperial system. Great Britain could not give complete territorial independence to Ireland, Mr. Wyle declared.

Cotton has been grown in Egypt since 200 B.C., but it was not until a hundred years ago that Jumel, a French engineer, suggested the introduction of the commercial varieties. In 1822 the famous American Sea Island cotton was first sown. Five years later a Brazilian variety was introduced. The two strains were mingled and from them came the famous "Ashmouni" plant, and the still finer "Mutafi," which is one of the most productive cottons in the world.

In after years a self-made man likes to boast about the hard struggle he had on a farm when he was a boy.

One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung? The trouble is they pay more attention to their social and household duties than they do to their health. It is any wonder then that they become irritable and nervous, have hot flushes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health.

Mrs. P. H. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes, when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

Price 50c a box at all dealers of mail order on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Open A Housekeeping Account

With The Merchants Bank, and pay all bills by cheque. By depositing a regular sum in a Savings Account, you know exactly how much is spent on the different branches of housekeeping.

When you settle by cheque, you avoid all disputes as to payment, as the cancelled cheques are receipts and prove the payments.

This business-like method of home finances often prevents paying the same bill twice. Savings Accounts may be opened in sums from \$1 up, on which interest is allowed.

OLYMPIA Ice Cream Parlor

Will be open for business today, April 21st with a full line of Chocolates, and other commodities. Fresh Candies and Soft Drinks of all kinds.

Prices Reasonable—Service Best.

D. L. Garland takes over the Rex on Saturday.

See the second episode of "Elmo the Mighty" at the Rex tonight.

Fresh milch cow for sale. Apply to Andrew Gilmour.

Remember there will be a matinee at the Rex on Saturday afternoon next. Children 10c., Adults 25c.

Business Chances
Any one desirous of going into business in Lacombe, see me. Two splendid openings. O. Boede.

The Editorial staff of the Lacombe High School wish to announce that their Annual will be completed and ready for sale in June. All those wishing copies please place their orders with one of the students immediately. This will be the first Lacombe High School Annual issued.

Wallpaper, Murex, Floor Paint and Varnish for spring cleaning at Lacombe Furniture Store.

Matinee at the Rex on Saturday afternoon—Children 10c., Adults 25c. There will be a matinee every Saturday afternoon from now on.

Secretary S. H. Welch has received word that 200 bulls are entered for the Lacombe Bull Sale.

A concert consisting entirely of local talent will be given in St. Andrew's Presbyterian Church on the last Friday in May. Announcement later.

The Annual Bull of the Lacombe Local Great War Veterans' Association will be held on or about May 14th. Watch for announcement next week.

Just in; a shipment of wool twine; Morrison and Johnston, Ltd.

J. A. Morrison, who succeeds W. H. Hunt as road inspector for this district has arrived in Lacombe and will commence his duties at once.

The Club Cafe, next to the Western Globe Office, opened to the public on Saturday, and to say this excellent place is appreciated by the public, is drawing it mild. The place is comfortably filled for every meal, and travellers find it most convenient. The service could not be improved upon, and one thing the farmer patron remarks, is that the charges are most reasonable. All white help, and everything spotlessly clean, makes it a pleasure to eat a meal there. Call in and see them.

Furniture. New spring stock constantly arriving, prices right: At Lacombe Furniture Store.

W. J. Troit, of Delta, Alta., formerly proprietor of the Delta Trading Co. has purchased the grocery store on Dolmige St., next to the Empress Hotel from Mr. Harrington, and will put in a full, new stock of the highest quality groceries and solicit a share of the patronage of the citizens of Lacombe and district. Goods guaranteed to be highest quality and price guaranteed.

Wallpaper. We will supply paper for walls, ceiling and border for room 12 x 14 for \$4.05.

The A. W. I. of Lockhart met in the church on the 15th of April, most all the members and one visitor were present. The delegates gave a very good report of the convention held at Edmonton. Five dollars was donated to the Lockhart School Fair Fund. The proceeds of the entertainment held by the Institute amounted to \$34.86, after all expenses were paid, and they wish to thank all those who helped to make it a success, and also those who took numbers on the quilt. The quilt was won by Mr. John Veckind of Rimby.

Get one of our special Wear-Ever Aluminum Saucepans. Regular 1.10 for 60 cts. Morrison and Johnston, Ltd.

Mrs. R. C. Mason handles the Red Deer Bread which is fresh every day; also cakes and candies. Think of the quality and you will forget the price. Next door to the

that time refused to see him again for very good reasons on my part.

Now I have \$300.00 cash for any one who (under oath) has evidence to the contrary with this provided that the individual who can secure this evidence dare publish his name in the columns of your paper. Thanking you for the space kindly given.

Dr. Joseph C. Bates, Chiropractor, Lacombe, Alberta.

Short Weight Butter.
The act pertaining to butter, in prints, reads in part as follows: "No person shall manufacture, sell or have in his possession for sale any butter cut into blocks, prints, or squares, that are not of the full net weight of sixteen (16) ounces."

Numerous infractions of this act have resulted in several prosecutions by the Inspector of Dairy Supplies, and more are likely to follow.

FARMERS—Your duty is to see that your butter is put up in full sixteen (16) ounces to each print, or you are liable to a very heavy fine and confiscation of your butter wherever it may be found.

COUNTRY MERCHANTS—According to the act you are liable to a very heavy fine and confiscation of your butter wherever found if not full sixteen (16) ounces to each print. You will save yourself trouble by weighing separately each and every print, and refusing to accept butter not good full weight of (16) ounces.

This notice is issued with a view to protecting the produce Shippers from confiscation and fines.

Card of Thanks
S. H. Welch and family wish to express their heartfelt thanks to those kind friends who so generously gave their time, sympathy and help in the days of their affliction and for the lovely flowers sent, and to thank the boys who formed the escort for the mother who never failed to stand up for the comrades of her dead boy.

Gleadowett News
Crist A. Anderson, was surprised the other night when a number of his friends came to his place at about eleven o'clock. When the boys arrived on the scene, everything was in darkness, and silence reigned supreme. It did not stay dark or silent long however, as Crist heard them outside and went to see what was up. They told him to light the lamps, and he made the excuse that there was no oil in them, but this did not work, as the boys evidently had better eyesight than him, for they noticed that the lamps were nearly filled with oil. They were all in the house by this time, and the festivities started, and dancing became the order of the night, and the dancers kept things rolling until about sunrise when they all departed for their homes, voting that Crist was a "Prince" and an ideal entertainer, and hoped for another escapade of this kind soon.

Dead—Hon. A. G. McKay.
A striking figure was removed from the public life of Canada, when death called Hon. A. G. McKay, on Sunday morning, (April 25th). Entering upon his sixty first year, but with an extraordinary vigor of mind and body, the promise of many years of usefulness lay before him, in the discharge of duties and responsibilities to which he was temperamentally inclined and for which he was peculiarly well fitted. Of tremendous energy and industry, coupled with extraordinary mental ability, he was able to achieve reputation and position in law and in politics, at the same time. He took a leading position in the practice of law in Ontario, and on removal to Alberta, it is not unfair to say that he at once took the leading position in at least the northern part of the province. He was made a K. C. both in Ontario and Alberta, at the time of his death was Minister of Municipalities and Health for Alberta.

Lakeside U.F.W.A.
Miss Archibald of Calgary organized the Lakeside U.F.W.A. with the following officers:
President, Mrs. P. A. Switzer; Vice-President, Mrs. C. R. Abbott; Secretary, Mrs. R. R. McIntosh; Directors, Mrs. S. Abbott; Mrs. W. Mitchell; Mrs. R. Hutchison; Mrs. H. Switzer; Mrs. H. Trame.

The next meeting is called for Friday afternoon, April 30th, at 3 o'clock in Lakeside Schoolhouse. Everyone is invited to attend.

Mrs. R. R. McIntosh, Sec.

Town of Lacombe
Assessment Roll 1920
Notice is hereby given that the Assessment Roll of the Town of Lacombe for the year 1920 has been prepared and is now open for inspection at the office of the Secretary-Treasurer of the town from 10 o'clock in the morning to four o'clock in the afternoon on every day which is not a public holiday except Saturday and in that day from 10 o'clock in the morning to 12 o'clock noon and that any ratepayer who desires to object to the Assessment of himself or of any other person must within thirty days after the date of this notice lodge his complaint in writing at my office.

Dated this 23rd day of April 1920.
N. E. CARRUTHERS
Assessor

For Rent
Section 7 miles from shipping point and good town. 100 cultivated, 100 acres hay meadow; 2 story house with electric light and water; large barn with lights and water; plenty of outbuildings; Good Lake in pasture. \$1000.00 cash rent; rent—None but a good tenant need apply; A snap.

Jesse Fraser Agency.

Chiropractic
I am taking the liberty of using your valuable space to publicly deny (above my own signature) certain charges aimed directly at me.

I am the Chiropractor in question who was supposed to be treating a small pox patient under the impression it was a case of bad blood, but unfortunately the party who makes the charge (and who has not the moral courage to sign his name) tells only part of the truth, I shall add reminder.

I saw this case for the first and only time on Monday, April 12th, also at

LOOK

Rimby Notes

Mrs. C. S. Davidson left on Tuesday for Albia, Iowa where she expects to spend a month or more.

Mr. Beatty expects to open for business this week, but being so pushed for time owing to getting ready for business could not give on his advertisement until next week.

WATCH FOR ANNOUNCEMENT.
Mr. Chas. Rolston has received a car of sugar and now in the time to buy before the prices go up.

A number of our local people attended the various dances around the country on Friday last.

Mr. J. MacLennan of Red Deer was a local visitor last week.

There was a good attendance at the movies on Saturday last. The new machine was set up that day, and a marked difference was noted in the projection.

Mr. Taylor of Lacombe was auctioneer at MacLennan's sale on Saturday last.

Boost your town by seeing that sidewalks are built in town.

Surrell and Peabody have now a full stock of all kinds of farm machinery.

We were unfairly accused of working against the town, by a few that are so narrow minded that they do not see that we are out after the money, the same as anyone else, and in trying to hurt one of the local real estate firms, that they can not touch, they complain about us. We are the shock absorbers and the aforementioned Realty company is the auto.

Benj. Franklin, who has been on the sick list for the past week is now convalescent.

Mrs. P. S. Bunch, Jos. Marshall, Wm. Brooks and Mr. Matheson made a business trip to Edmonton on Wednesday last, returning on Saturday.

Mr. Ashhead, Jr. of Calgary, was in town on Friday looking up the schools that needed teachers. His search not being very successful, he returned to Lacombe the same day.

Dr. Byers left last week for Naba, on account of the death of his sister living there.

Mr. W. J. White returned from Calgary on Friday last.

A. Connelly's garage building is nearing completion. Watch for announcement later.

E. B. Sisty's sale was a good success.

We would like to see the road due west from town opened up for twenty miles, as there are many settlers in that country selling their produce and doing their trading at Eckville instead of in Rimby, even though they have to go twice the distance, but the road to Eckville in good and good roads draw the trade, it would be a good thing for the town if this

matter was pushed to the limit.

Miss B. Johnston of Wetaskiwin was in town on Friday enroute to Springdale near which place she will teach school.

We have received information from the Merchants Bank, that they are starting to build their new Bank Building here at once. The fact will be received gladly by those citizens that have been leary of the town staying here. When the Banks build there is no fear of the town moving, even though some are trying to move it.

Mr. and Mrs. G. T. Gregory, are being congratulated on the birth of a boy.

The warm weather of the past few days has made the streets kind of muddy, but they are rapidly drying out. "Let's try and get sidewalks built before the next shower."

Do not forget the Boy-Social and dance in the Rimby Hall on Thursday, April 29th under the auspices of the Rimby Baseball Club. Everyone invited. "Come and Boost the team that boosts your town."

Lacombe Mission
On Dolmige street, R. H. and P. E. Haight, pastors. Sunday school 2 p.m. Meeting Tuesday, Thursday and Friday at 7.30 p.m. Any needing spiritual help will be visited by applying to the pastor. M10-3p.

Cattle Wanted
I am in the market for cattle of all kinds. If you have any cows, steers or young cattle for sale, see me. Geo. Stephenson, Phone 151, Lacombe, Alberta. I pay the highest prices.

Strayed from my place about 2 weeks ago, one brown mare coming 8 years old, in foal, no brands, almost solid color, a few white spots on body and legs. A reward will be given. Fred Copes, Rimby.

House for Sale at a Snap
My residence, corner of Barnett ave. and Edmonton trail. Will make prices very low. W. F. Puffer. M3-3c.

IN THE DISTRICT COURT OF THE DISTRICT OF RED DEER

In the matter of the Estate of James Brooke, Deceased.

Notice is hereby given that all persons having claims upon the estate of James Brooke, Deceased, who died in Bentley, are required to file with the undersigned, by the 22nd day of May, A. D. 1920, a full statement duly verified of their claims and if any security held by them, and that after that date the Executors will proceed to distribute the estate of the deceased amongst the parties entitled thereto, having regard only to the claims of which notice has been filed with the undersigned.

Dated this 17th day of April, A.D. 1920.

Jones, Scott and McLaurin, Box 145, Lacombe, Solicitors for the Executors.

Cow for Sale
Cow, coming in soon; a good one, for sale. Apply John McNab, Box 124 Lacombe, or phone him at George Fernie's, Gull Lake.

Spencers' Anconas
Those great winter egg producers. Single comb beauties. Setting eggs \$3.00 per 15. Fertility guaranteed. Mrs. W. H. Spencer, Lacombe, Alta.

Eggs for Hatching
Pure-bred barred Plymouth Rock Eggs for hatching: \$2.00 per setting of 15. Mrs. J. B. Harrington, Lacombe.

On the premises of Paul Paulson, Bentley, S.W. 32-40-7 w6, a black mare with white star in forehead. H. W. Birch. Brand Reader.

Farm Listings Wanted
We expect a great number of land buyers from the States and all wanting to sell their farms should list it with the Lacombe Realty Co. J. R. Whitney—P. S. Bunnell, Office, Royal Bank Building.

For Sale
House for Sale—Cottage 26 x 26, 6 rooms, lot 100 x 125, on corner Archibald Ave., and Edmonton Trail. For particulars and terms, apply D. W. Rehl, on premises. April 14-3c.

Tenders for Coal
Sealed tenders addressed to the undersigned and endorsed "Tender for Dominion Buildings throughout the Province of Alberta, Manitoba and Saskatchewan," will be received at this office until 12 o'clock, noon, Wednesday, May 19, 1920, for the supply of coal for the supply of coal for the Dominion Buildings throughout the Province of Alberta, Manitoba and Saskatchewan.

Combined specifications and form of tender can be obtained from the Purchasing Agent, Department of Public Works, Ottawa, and from the Caretakers of the different Dominion buildings.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up an odd amount.

By Order,
R. C. DESROCHERS, Secretary,
Department of Public Works, Ottawa,
April 16, 1920.

EUROPEANS FLOCK TO CANADA

(1) Capt. MacDuff, of C. P. R. Colonization Department, meeting first party of emigrants (season 1920) at St. John. A fine type of prosperous settlers.

(2) British emigrants arriving on the C. P. O. S. Grampian for western farms.

These Dominion builders-to-be, the Department of Colonization and Development of the Canadian Pacific Railway, interested among other progressive phases, in the human development of the country, has appointed a colonization agent—a foster parent of emigrants arriving on the company's boats. When a vessel departs into port he is there to go on board with the immigration officer—Capt. Andrew McDuff, veteran of two wars, versed in many languages, sympathetic, tactful, and schooled in the many sides of human nature. He is at the service of these new arrivals to assist with information and advice. He shepherds them from the boat to the waiting

OPERATION WAS NOT NECESSARY

"Fruit-a-lives" Restored Her To Perfect Health

128 PATERSON AVE., MONTREAL.
"For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist who said I must undergo an operation. I refused. I heard about 'Fruit-a-lives' and decided to try it. The first box gave great relief, and I continued the treatment. Now my health is excellent—I am free of pain—and I give 'Fruit-a-lives' my warmest thanks."
Mme. F. GARREAU.
Box a box, 6 for \$2.50, trial size 25c. All dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

Called Away From Youth and Life

On Wednesday, April 7, there passed away from our community, one of its brightest and best known children, Jean, the ten year old daughter of Dr. and Mrs. Collier. The reaper came in the midst of apparent perfect health and the sudden end came as a tremendous shock to relatives and friends, old and young. The child was called upon to undergo a slight operation for the throat, but failed to recover from the anesthetic.

The funeral was held on Friday, following a short service at the residence on Gore Ave. The casket was covered in blossoms, and was borne from the house between lines of classmates paying their last tribute to a loved companion. The services were conducted by Rev. A. W. Collins and Rev. D. Campbell.

Jean, though with her parents only recently arrived from the prairies, quickly endeared herself to all who met her. She was a gifted reciter, the admirer of the bright and happy nature soon numbered most of the citizens, and her aid was sought at every entertainment. On the Thursday she was to have appeared at the Imperial Theatre in aid of the hospital. Keen sympathy is extended to the bereaved family in their loss.

Taken from 'Chilliwack' Progress

Big Time at Rimbey

On Friday night last, a number of Rimbey citizens made a raid on the offices of the MacGillivray Realty Co., and the Pioneer Printing Office, completely demolishing both places. Joseph Marshall, Frank Peabody, Jesse Lloyd, Roy Shrieves and H. A. Chase have been arrested and charged with the destruction. They came up for trial last night and were sent up for trial at the next court of competent jurisdiction.

C. F. DAMRON, AUCTIONEER.

It is Dangerous to Use Counterfeit Parts for the

BY allowing your garage man to use imitation parts in repairing your car you not only invite repeated repair bills and more serious breakdowns, but you actually endanger your own life and the lives of others. Cheap and inferior parts used in connection with the steering control are liable to cause accidents of a very serious nature.

You Risk Your Life When You Use Imitation Spindles

In a recent test the tensile strength of the genuine Ford Vanadium Steel spindle arm was found to be over 100% more than that of the counterfeit machine steel part. The arms were submitted to shock, and the counterfeit arm broke at a pulling force equivalent to 11,425 pounds applied to a cross section. The same pulling force applied to a corresponding cross section of a genuine Ford spindle arm did not even change its original size or shape. In order to separate the genuine spindle arm it was necessary to apply a pulling force of 25,000 pounds.

The spindle arm is one of the vital parts entering into the control of a car, and by using spurious parts in such places, Ford owners are risking lives and property.

You are merely protecting yourself and avoiding repeated repair bills when you demand genuine Ford parts.

Only Genuine Ford Parts Can be Used with Safety

For Canadians to Consider

The national debt of Canada has now reached a figure of approximately \$3,000,000,000. This is the gross debt. The net debt, that is after deduction of assets has been made, is now around \$2,000,000,000. It must be borne in mind, however, that many items included in the statement of assets are not such in the recognized commercial meaning of the term; in fact, no inconsiderable portion of what are termed assets are, for the time being at least, more in the nature of liabilities. For example, Canada has some hundreds of millions of dollars invested in the National Railways, and the latter are regarded as an asset, but as a matter of fact and common knowledge these railways are not earning operating expenses, not to mention interest on the capital invested in them. Consequently, in casting up the national balance sheet, the people must be taxed to meet both operating deficits and the whole interest outlay on the money invested in, and the stocks, bonds and debentures outstanding against these railways.

For the current year it is estimated that no less a sum than \$350,000,000 will be required to meet ordinary expenditures, and a further substantial addition must be made to the national debt to cover certain capital expenditures to which the country is already committed and which cannot be avoided.

Of this \$350,000,000, about \$125,000,000 will be eaten up as interest on the public debt. In the neighborhood of \$50,000,000 will be required to cover operating deficits and interest payments on account of the national railways. Thus, these two items alone will dispose of one-half of the entire revenue.

Out of the remaining \$175,000,000 some tens of millions must be paid out in pensions, vocational training for soldiers, hospital accommodation and treatment for soldiers, and in various forms of soldiers' civil re-establishment work. Some millions are to be spent in grants on a population basis to the provinces for highway construction; a few millions will be used to meet the deficit in the operation of the post office department; and all the expenses of government, including the Civil Service, administration of justice, militia and police establishment, subsidies to the provinces, and all the multiplicity of services devolving upon the Federal Government must be met.

The people of Canada, who are the taxpayers, and who must bear the burden of providing the money to meet all these obligations, must seriously consider the national situation, and especially so at times when they may be inclined to urge additional expenditures of one kind or another for very laudable and even necessary purposes. Canada must, however, curtail its expenditures to a point where they can be covered by the revenue. This country cannot continue living on borrowed money and by going still deeper into debt. There must be national as well as individual retrenchment. Instead of getting deeper into debt, the time approaches when we must agree to still heavier taxation in order to begin the process of liquidating the national debt, as it is now being done in Great Britain.

There is nothing in the national situation, however, to despair over or become pessimistic about. Canada has the resources and the energy and the ability to meet all its obligations, proceed with its development, and add to the wealth, prosperity and happiness of its people. But it cannot be accomplished by continual criticism, by seeking to tear down existing institutions in order to apply a lot of unbacked theories and untested methods. The world, Canada included, has had enough of destruction within the past five or six years. What is now necessary is constructive enterprise, and

that can only be brought about by work, and by people generally realizing that it is impossible to get something for nothing; that, on the contrary, the present tendency of most people to be slackers at their job, to insist upon double the wages formerly received in return for about half as much labor and effort on their part, must be abandoned.

Hard work is in sight for most of us. If we do not make up our minds to undertake such work now, buckle down to our jobs, and produce to the maximum of our powers in whatever occupation we may be engaged, at the same time cutting out luxuries, and saving the last possible dollar—well, we are but slightly delaying the time when dire force of necessity will compel us to do these things, and the longer the delay before doing what we ought to do, the greater the loss and the more severe the penalty will be.

If we don't eliminate luxuries and save now; if we still think we can produce less and consume more; if we continue to delude ourselves that we can indefinitely continue to receive double pay for half as much work, nothing can prevent hard times. If such times come as a result of our folly, we will not only do without luxuries, but may find ourselves hard pressed to obtain necessities.

There is only one solution, in Canada as elsewhere. It is not theorizing; it is work—hard, practical, productive work.

Drama of the War

The Meeting Before the Battle of the Marne

For days General French had manoeuvred his retreat, fighting a rear-guard action against the tremendous odds. No one knew what the morrow might bring to the already exhausted army.

Accompanied by three staff officers one of whom was with us that evening at dinner, French had reached an inn not many miles from Paris. He had not slept for thirty hours. To his chief of staff he said:

"I am going to take a little sleep. Under no circumstances must I be disturbed."

After what seemed to him a few moments there was a loud rapping at the door. Opening it with a vigorous protest at being aroused, he found one of his officers, who said:

"I am extremely sorry to have disturbed you sir, but the matter is most urgent."

"What is it?" demanded French.

"General Joffre is below, sir, and desires to see you."

The British commander-in-chief descended to the dingy main room of the cafe. Wrapped in his cape stood "Papa" Joffre, with only one aide.

"I have decided to take a stand. Here is the plan," said the Frenchman.

On a wine-spattered table and by the light of a guttering candle, Joffre unfolded the plan of the engagement that ended the Kaiser's dream of conquest forever. He then showed his colleague that immortal "order of the day," which included the phrase, "the hour has come to advance at any cost and to die where you stand, rather than give way," and which was read to the French army at dawn. I doubt if the whole drama of the war presented a scene more striking than the spectacle of these two chieftains seated in that shabby room of an obscure country tavern on the eve of one of the world's epic events.—Isaac F. Marcossion, in "Records of an Interview."

Minard's Liniment for sale everywhere.

Canada Secures Orders in Roumania
The Canadian Association of Woollen Manufacturers has secured orders in Roumania to the value of \$2,500,000. The association sent an agent to Roumania to handle lines of Canadian woollens in south-eastern Europe.

Demand for Men Better

34,440 Workers Were Placed During Month of March

The employment situation in Canada is improving, according to figures published in the Labor Gazette for April. The employment service connected with the department of labor placed altogether 34,440 people in employment during the month of March and received 41,700 applications for employment. The department was notified of 38,200 vacancies. All these figures represent an increase over the previous month and the previous year. There was a steady increase in employment in all provinces except the prairies, where a decline was reported.

There was less loss of time due to strikes in March, 22 strikes were reported, involving 3,789 people and representing a loss of 43,169 working days. Sixteen strikes remained unsettled at the end of the month. Reports were received from five conciliation boards and applications were received for five more. Two boards were appointed in addition to those on application received previously.

National Research Institute

Institution Would Meet The Requirements for Developing the Natural Resources

Plans for the establishment of a national research institute for Canada, were before the commons committee on scientific research recently. It was recommended that a site of at least 5 acres should be secured near Ottawa and a building of laboratory type four stories in height, to cost \$500,000 to be erected.

The scientific instruments required would cost approximately \$100,000 and salaries would require about \$100,000 per annum.

This institute would be similar to the bureau of standards at Washington and the Mellon institute at Pittsburgh. It was felt that such an institution would meet the most pressing requirements for developing natural resources and make provision for assistance to Canadian industries.

A bill covering the establishment of such an institution is to be drafted by a sub-committee composed of Dr. S. B. Steele, Dr. Thompson (Yukon), and Dr. R. J. Manion (Fort William), who will report back to the committee.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

For Good Films

Manitoba Takes Lead in Encouraging British and Canadian Sentiment

The Good Films Committee desire to go on record as being heartily in accord with all movements tending to raise the standard of Motion Picture entertainments in Manitoba with a view to encouraging British and Canadian sentiment and clean ideals of family life.

The committee urge a closer co-operation between the board of censors and the citizen in order that the public may have a fuller understanding of the wide-spread influence of this universal form of recreation, which is undoubtedly doing much to mould the sentiment of the rising generation.

It is strongly advocated that constantly recurring ideas and suggestions in pictures dealing with seduction and infidelity; shady methods of divorce; vicious underworld characters and methods of life; sex immorality; and the depiction of assault upon women be suppressed.

The lead taken by Manitoba in this connection might well be followed by the other prairie provinces. The educational value of the moving picture is second only to the newspaper, and it is therefore of paramount importance that pictures depicting only the highest and best ideals should be shown. Let everyone interest themselves in helping to raise the standard of motion picture productions.

British War Medals

It was recently stated in the British House of Commons that the total number of war service medals produced up to the end of February is 1,037,000, and at the present rate of progress it will take approximately 18 months to complete the 14,500,000 war service medals required.

Make A Home on the Farm

A Farm Must Be Self-Supporting Before A Farmer Can Become A Contented Home-Maker

One cause of the present unrest among the farming population of the west is the lack of home times. What do I mean by that? I mean, that the average settler in the semi-arid region regards himself as a temporary occupant of the land rather than as a permanent fixture—a permanent citizen of the country. As a result of this feeling he has not developed the home-making trait. He intends to get a big crop sometime and sell out to someone from the east. No country can be prosperous until the farmers have a settled determination not only to live in the country but to die there. A community without graveyards is an uncertain quantity.

The farm home must be self-supporting. The farmer who sells his hogs and buys ham and bacon, who sells his cream and buys butter and the farmer who raises cattle and lives on condensed milk, will never become a contented home-maker.

A one-crop system will never develop a contented community. The farmer must first of all be a "nester"—he must be rooted to his farm in so far as he regards it as a home for himself and his family.

A wheat farm will never become a home, neither will a cattle-ranch nor a sheep-ranch. A farm home that is sustained by a few cows, hens, hogs, sheep and sufficient of other stock, including goats, to consume the forage of the farm will hold a contented family. And without contentment there is no permanence.

The last three years have demonstrated the futility of trying to develop a country with one crop. The farmers of the so-called dry farming states must diversify their crops, plant corn, Sudan grass, millet, rye, barley and other crops that can be fed on the place. Then get by any means possible the stock to feed it up and there will be no returning to the homes in the east and middle west.

A farm home without chickens and calves, and pigs and lambs, and colts is like a home without children. It is a misfortune for any child to be born and raised on a farm that is not stocked with animal pets.

The farm home must be self-sustaining. We must get back to some of the customs of our fathers when nearly everything that was needed by the family was produced at home; when the family made its own sugar, raised its own honey, killed its meat and made its butter and soap, when the cellar was filled with everything that was good to eat, and the garret with dried fruit. We as farmers may be forced to go back to the days of spinning and weaving to clothe the family, for at the present rate of increase of cost there will be no other way. We must abandon the idea that the farm is a factory and make of it a home where we can live and escape to some degree the profiteer—we must make a home of the farm.—Scientific Farmer.

Minard's Liniment Cures Dandruff.

Wolves in Manitoba

Says Wolves Do Most Everything But Vote

According to Christopher Possett, station agent at Gunton village, a short distance from Winnipeg, the only thing wolves don't insist on doing in his town is voting. Possett was in the city to get Provincial permission to carry a gun and says the wolves know the railroad timetables as well as the chief dispatcher and come in droves to meet the incoming trains. What grieves Possett most is that recently he had a sugar-cured ham put off the train for his own consumption, and in a race for the meat between himself and a pair of wolves he lost. He was given the permit, bought a gun and loaded up with enough ammunition to last him a year or two.

CHILDREN OF ALL AGES

Children of all ages—whether it be the newborn babe or the growing child—have to be constantly guarded as to their health. Upon the good health of the little one largely depends his strength and usefulness in later years. Baby's Own Tablets are the ideal home medicine for children of all ages. They are a gentle but thorough laxative which are absolutely guaranteed to be free from opiates or other harmful drugs and which may be given to the youngest child with perfect safety and beneficial results. Through their action on the bowels and stomach they banish constipation and indigestion; break up colds and simple fevers and make teething easy. Mothers, you can make your little one well and keep them well by just keeping a box of the Tablets at hand and by giving an occasional dose to the baby to keep his little bowels regular and his stomach sweet. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Site for B. C. University
The British Columbia government has decided on Point Grey in Vancouver as the permanent site for the Provincial University, and has secured 3,000 acres for the purpose. The undertaking will be financed by means of a \$300,000 loan, and construction work to the extent of at least \$500,000 is to be proceeded with this year.

Value of Canadian Farms Increases

B. C. Leads in Value for the Whole of the Dominion

In the past five years the value of Canadian farms has risen by \$14 per acre or 36.8 per cent, according to estimates of the Dominion Bureau of Statistics. The average value of an acre of farm land in the Dominion in 1919 was \$52 per acre, as compared with \$46 the previous year, \$44 in 1917, \$41 in 1916, \$40 in 1915, and \$38 in 1914. These steady annual rises in farm values bear glowing tribute to the agricultural progress of the Dominion and the rich productivity of the Canadian soil. They would also indicate a wide-awake class of agriculturists alive to the importance of study and science in their pursuit.

The province of Ontario with an average of \$66 per acre, and Quebec with \$72 per acre are above the average in the Dominion. In Prince Edward Island the value has risen from \$44, the highest previous value, to \$51, whilst Nova Scotia shows an increase of from \$36 in 1918 to \$41. The value of New Brunswick farm lands in 1919 was placed at \$19 per acre, \$29 in 1916, \$35 in 1918, and \$32 last year. Western lands have seen steady rises. In Manitoba, whilst fluctuating between \$29 in 1910 and \$32 in 1918, the value rose to \$35 in 1919. In Saskatchewan, the value in 1919 was \$32, a rise of \$3 from the previous year and \$8 since 1914. Alberta lands increased in value from \$21 in 1914 to \$27 in 1917 and \$29 in 1919. By provinces, the value is highest in British Columbia, being valued at an average of \$174 per acre.

Good Year Predicted For Dairy Farmers

Prospects Are Bright For Dairy Producers in Saskatchewan

Percy E. Reed, Dairy Commissioner for Saskatchewan, declares that the dairy outlook for the province in 1920 is decidedly brighter. Present indications are that 1920 will see a considerable increase of product over 1919.

Statistic reports for the past year show an increase of 21,073 milk cows in the province over the previous year. The creamery output for 1919 totalled 6,598,000 pounds, which was 31 per cent greater than that of the previous year, while the total value of dairy products last year was \$16,769,847, an increase of \$3,127,000 over 1918.

During 1919 there were 6,417 churnings of butter, representing over 4,090,455 pounds, graded at the government grading stations at Regina and Saskatchewan. This represents an increase of 23 per cent over the grading work done in 1918, and is further evidence of the importance and value of the grading service and of the interest taken in maintaining quality and uniformity in output.

A gratifying feature of the development in dairying is a great awakening to the advantages and possibilities of the dairy interest on the part of the farmers of the southern open sections of the province. The percentage increase has been greater in central and southern sections than in northern Saskatchewan, which has always been regarded as a natural stock raising area.

Six new creameries are assured for the coming season. Ice cream equipment is being installed in three existing plants in addition to seven creameries which reported on output of over one-half million gallons of ice cream during the year.

The past winter was a hard one for dairymen in all parts of the province. An unusually long season of enforced inside feeding followed a year of widespread and serious drought and will result in many herds going to the pastures in a greatly reduced condition. This will unquestionably tend to reduce the production of the coming summer below what it otherwise would have been. On the other hand, a poor wheat crop has a tendency to drive the farmers from grain growing to dairying and in the drier section of the province many men have returned to the dairy cow as the only certain source of cash income, and a large number of these will unquestionably continue in the business.

Marked progress in the production of suitable winter feeds and in the work of individual cow testing, are features in connection with the producer's end of it which are indicative of the rapid future development of the dairy industry. A larger number of dairymen are each year coming to realize that large individual production is essential to satisfactory profits and consequent with this realization there is an expansion of the work of individual cow testing.

Discovery in recent years of the feeding value of the sunflower and its wide adaptability owing to its properties of resistance to both drought and frost, together with a more general adoption of the silo as a feed storage, are doing much to solve the question of winter feeding. More than 75 per cent of the enquiries for female stock being received at the livestock branch of the Saskatchewan department of agriculture are for animals of milking strains or breeds. These enquiries are coming in from all parts of the province, and every evidence from both producers and manufacturers goes to show that 1920 will record another great forward movement in Saskatchewan dairying.

Insures long life

Imperial Mica Axle Grease and Imperial Eureka Harness Oil insure long life for wagons and harness. Put up in convenient cans and sold by dealers everywhere.

Smoke Screens

Secret Used With Great Success By The British Navy

The secret of the smoke screens used with such great success by the British Navy in the raids on Ostend and Zeebrugge is definitely disclosed. They were produced from an acid, which has to be burned in the presence of a sufficient amount of water vapor, otherwise the smoke produced even over the sea, is liable to be somewhat thin on dry land.

Commander Brock, who sacrificed his life in the assault on the German defences at the Belgian ports, devised the plan to feed the acid in a fine spray into the funnel of a destroyer, where the temperature was sufficient to vaporize the acid, and the water vapor present completed the formation of a cloud.

More Drastic Methods

If the Sinn Feiners were carrying on operations under the stars and stripes, instead of the Union Jack, the whole Sinn Fein movement, like ancient Gaul, could be divided into three parts—one part in the graveyard; one part in the penitentiary; and the other part in process of being shot into the cells or the cemetery.—Toronto Telegram.

Wise men always do a little hustling on their own account while waiting for good luck to come and pay them a visit.

A Satisfied Farmer

This Country Cannot Be Beaten For Mixed Farming

I have lived in the Kitchissippi district for fourteen years, and have a half section under cultivation, and have farmed ever since coming to the country, and have grown wheat, oats, barley and flax. Wheat has yielded from 28 to 51 bushels per acre, oats from 28 to 51 bushels, barley 35 to 45 and flax 15 to 20 bushels per acre. I had a failure the season of 1918 owing to hail, the only hail I have had since coming to the country. I might say that my wheat has always graded never lower than Number Three in the thirteen crops I have harvested. I am well satisfied with the district for grain growing, and I have had at times over one hundred head of cattle. I don't think the country can be beaten for mixed farming. We have first-class soil, good water, and a good climate, all we need is more and better farmers.

(Sgd.) Joseph Gilmore, Kitchissippi, Alberta.

Useful

Statisticians say that there are 25,000 Canadians who can neither read nor write. But if they can work, they will still be of great value to the country. Many of those who can read and write in a dozen languages are useless when it comes to production.

It is just fifty years since the method of grinding wood as raw material for paper was introduced in the United States.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is of like 14 Karat gold. It positively identifies the only genuine Aspirin—Headache, Toothache, Rheumatism, Neuralgia, Lumbago, Neuritis, Joint Pains, and Pain generally. Tin boxes of 12 tablets cost but always buy an unbroken package a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monocetate of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

For Endurance and Utility

THE sturdy craftsmanship and materials combined with beauty of patterns make the Silverplate of William Rogers and his Son stand pre-eminent in the opinions of discerning buyers as "The Best at the Price."

Made and guaranteed by WM. ROGERS MFG. CO. NIAGARA FALLS, ONT.

The Shopkeepers of William Rogers and his Son. "The Best at the Price"

A Food That Builds! Grape-Nuts

A staunch food made of wheat and malted barley, ready to eat, easily digested, and full of sound nourishment. For those who work with brain or brawn there is no better breakfast or lunch than Grape-Nuts. There's a Reason Sold by Grocers

Made by Canadian Western Cereal Co. Ltd. Windsor, Ont.

Outlaw Strikers Still Refuse to Return to Work

Chicago.—Several thousand strikers, at a mass meeting, refused to take action to end the unauthorized walk-out now in its fourth week in the Chicago terminal district.

The meeting called by John Grunau, president of the outlaw Chicago Yardmen's Association, and Harold Reading, head of the United Engineers' Association, "to clear up the entire situation," adjourned 45 minutes after being convened with no progress made.

Representatives of the Railroad General Managers' Association and agents of the government ignored the invitations, and the general managers announced that they would enter into no negotiations with the "insurgents."

The railroads announced today that traffic was 85 percent normal.

The Baltimore & Ohio Railroad announced that strikers who did not return to work would lose seniority rights.

Approximately 1,500 strikers from the Illinois terminals of the St. Louis district met in East St. Louis and voted to remain out. The vote was unanimous.

Miners Riot at Butte

Fourteen I.W.W.'s and One Policeman Are Wounded

Butte, Mont.—Fourteen men, believed to be Industrial Workers of the World strike pickets, and one policeman, are in local hospitals suffering from gunshot wounds sustained in a battle on Anaconda road, near the Neversweet mine. Police officers believe two of the alleged Industrial Workers will not recover.

Police are searching for three other men said to have been wounded seriously. Striking miners are massed in Finlander hall and the street in front of the building. Feeling runs high. Police reserves have been called out.

Deporting Sinn Feiners

Fifteen Removed From Belfast and A Large Number From Queens-town in Destroyers

Belfast.—The removal of fifteen Sinn Fein prisoners from Belfast and a large number from Queens-town on three destroyers leads to the belief that the authorities are planning taking all Sinn Fein prisoners from Ireland.

The house of a merchant named Stewart was destroyed by fire in County Down. In Limerick, the Theatre Royal was attacked last night, and a dozen armed men rushed the officers and held up the manager, abstracting the receipts of the day.

Loss Owing to Strikes

London.—Thomas J. MacNamara, minister of labor, told the house of commons that the strikes and lock-outs reported to the ministry of labor during 1919, aggregated 1,413. The total number of persons directly or indirectly affected was 2,580,000. The aggregate duration of the disputes was 34,430,000 working days, figuring on the basis of individual loss of time.

Chile to Buy British Ships

Santiago, Chile.—Negotiations between Chile and Great Britain for the purchase of warships by the former country are nearing completion. Great Britain has offered a dreadnaught, 3 first class destroyers and an auxiliary ship at what is considered here to be an exceedingly low price, and Chile is expected to make a quick decision.

Has no Information

Ottawa.—Replying to the question raised some days ago as to whether the Canadian government in 1910, 1911 and 1912 was offered gun patents which were afterwards sold to the German government by D. L. Hendrick, of Logan, Ont., Hon. A. L. Sifton stated that the government had no information.

Supreme Council To Deal With The German Problem

Paris.—The San Remo correspondent of this paper has been informed that the propositions of Premier Nitti and Lloyd George on the question of dealing with Germany culminated in a suggestion that Germany be invited to take part in the conference here. The premier indicated, he declared, that in their view the presence of the German chancellor in person would be desirable as a means of making the discussion of the future and economic relations between Germany and her former enemies productive of the best results.

However, adds the correspondent, the representations of Premier Millerand ultimately convinced the Italian and British premiers that they had taken the wrong view, and it was decided that discussion of the German problem should be confined to the members of the supreme council.

Bridges Damaged Owing to Floods

Coal Stores in Calgary Are Running Pretty Low

Calgary.—From information secured from some of the coal operators in the Drumheller valley served by the Canadian Northern Railway, it will be a month before the bridges can be repaired sufficiently for the movement of traffic. It is stated that there are sixty-five bridges in a distance of twenty miles, and that fifteen of them are in a damaged condition owing to the floods. In some cases the bridges are submerged to a depth of more than four feet of water. Coal stores in Calgary are running pretty low, as the bulk of the coal used here comes from Drumheller. The principal supplies are now coming from the Edmonton district.

Indemnities for Canada

Canada's Claim Against Germany Is Now Being Computed

Ottawa.—The amount of Canada's indemnity from Germany is now being computed for presentation to the tribunal created under the peace treaty, for considering such things.

Hon. N. W. Rowell, in answering a series of questions by Thomas Hay in the house, stated that the treaty of peace limits and defines the classes of claims which may be presented by the allied and associated powers against Germany. In so far as Canada has expended money or incurred obligations covered by the treaty, she has a claim.

The government is taking the necessary steps to see that the claims are properly presented. He stated that it is not true that Australia and other British colonies have all received additional territory by way of indemnity. Australia, New Zealand and South Africa will be named as mandatories under the League of Nations in respect to certain territories which Germany has been requested to surrender.

Letter on Abandoned Ship

Message Found on Board Bids 'Good-bye to Everyone For Evermore'

Prince Rupert.—The boat, McDuff, which ran ashore at Alford Bay with no one on board is on her way here, being sailed by an Indian. A letter was found addressed to Mrs. Anne Bromington, 176 Burgess street, Grimsby, England, saying:

"Engine broken, rudder smashed, drifting to Hecate Straits, storm. Bidding good-bye to everyone for evermore."

Reorganization of Air Board

Ottawa.—The Journal announces the reorganization of the Canadian air board. Hon. Hugh Guthrie becomes chairman instead of Hon. A. L. Sifton, and the members are: Major-General Gwatkin, Col. O. M. Biggar, Dr. Deville (surveyor-general), and Commander Hose.

J. A. Wilson, assistant deputy minister of naval affairs is made permanent secretary and will have active charge of administration of the board.

Ralph Connor Gets Appointment

Winnipeg.—Dr. C. W. Gordon (Ralph Connor), clergyman and novelist will be appointed chairman of industry to be set up by the provincial government under the Industrial Conditions act, according to an official statement made at the parliament buildings by the Hon. J. W. Armstrong, provincial secretary. The decision was arrived at after a final interview between Mr. Gordon and the provincial secretary.

Royal Train Held Up By Armed Men

Bandits Attacked Queen Victoria and Her Brother

Seville, Spain.—Bandits attacked a train on which Queen Victoria and her brother, the Marquis of Carisbrook were travelling from Madrid to Seville. The robbers made an unsuccessful attempt to carry off the royal plate, which the queen was taking with her. The robbers, who were well armed, opened a regular fusillade when discovered, wounding two of the railway men, one of them probably mortally. The bandits escaped in a two-hour carriage, leaving no clue to their identity.

For Unity of Empire

King Sends Message to St. George's Society of New York Hoping For Peace of the World

New York.—A cable message from King George, praying for world peace, was read at the annual dinner of the St. George's Society of New York at the Waldorf-Astoria. There were 350 members and guests in attendance, some of the guests having come from Canada especially for the occasion.

The King's message, sent through his private secretary, said: "The King sincerely thanks the members of the St. George's society for their loyal greetings and good wishes, which His Majesty much appreciates. The King joins with them in praying for peace among the nations of the world, and a spirit of unity within our empire."

Germans Would Increase Army

Want to be Allowed to Retain All Officers and Staff

Paris.—Germany has asked the inter-allied conference at San Remo to increase from 100,000 to 280,000 men the standing army provided for Germany by the terms of the Treaty of Versailles.

The request was contained in a note handed to the French foreign office last evening with the demand that it be sent to the supreme council at San Remo.

The note set forth that an increased force was necessary for the maintenance of order in the interior and that, fundamentally, the army would not accept an order for its dissolution.

The note further requests that Germany be allowed to retain the entire general staff and corps of officers, which means the entire framework of the active army.

Two other notes were handed to the foreign office at the same time. One dealt with the disbandment of the civic guards, which has already been made public, and the note contained a request that the reichswehr force in the neutral zone should be fixed according to the number of men instead of the number of units, and that Germany be allowed to have 11 batteries of artillery instead of two in the neutral zone.

Universal Shortage

Dr. Robertson Tells Committee Of Abnormal World Demand

Ottawa.—In an address before the parliamentary committee on agriculture and colonization, Dr. J. W. Robertson, said it would take at least two big crops to catch up to anything like normal supplies of breadstuffs; ten years to obtain a pre-war status on milk products, and four or five years for beef products.

Dr. Robertson went at length into his experience overseas, reiterating his statements that prices were dependent entirely upon world conditions. Increased production in Canada would not lower prices because of continued abnormal demand.

Exhibition Munitions Are Guaranteed

Question of Compensation for Man Killed At Parry Sound Is Under Consideration

Ottawa.—The Government has a guarantee that all active munitions returned from overseas are properly examined and guaranteed to be harmless before being used for exhibition purposes. This information was given to James Arthurs, of Parry Sound, in the house of commons the other day.

Mr. Arthurs asked whether a claim had been made for compensation for the death of Mr. Alves, who was killed at Parry Sound fall fair by the explosion of a trench mortar supposed to be harmless. He was told that such a claim had been made and that the question of making provision for the family of Mr. Alves was under consideration.

For the Former Crown Prince

Amsterdam.—Negotiations with the Reformed Church at Wieringen for purchase of a local presbytery "as a permanent residence for the former Crown Prince of Germany," have been begun by the Dutch government, according to the Wieringen, correspondent of the Telegraaf.

Caillaux Escapes Charge Of Death Penalty

Charge of High Treason Against Former French Premier Was Withdrawn

Paris.—Joseph Caillaux, former premier of France was found guilty of having had correspondence with the enemy, by the high court of the senate. The vote was 15 to 91.

The charges of high treason and intelligence with the enemy were eliminated by a vote of 213 to 28. This eliminated the possibility of the death penalty being inflicted. The court then took up the charge of correspondence or commerce with the enemy. Conviction on this count might entail imprisonment in a fortress for not more than five years or not less than one year, or banishment.

The senators, upon taking over the case for decision, proceeded with it rapidly, a large number of them expressing their view that a verdict would be rendered, as the brunt of the discussion hinged on the irreconcilable position of two groups, one group, it appears, have insisted that the court should convict M. Caillaux of a minor offence and inflict a light penalty, while the other group was equally determined upon unconditional acquittal of the accused.

Buried in China

Find Bodies of Some of Russian Imperial Family

Peking.—Seven bodies, four of them said to be those of members of the Russian Imperial family, have arrived in Peking from Harbin and were buried in the Russian cemetery outside the city wall. The whole proceeding was surrounded with the greatest secrecy, even the Russian legation receiving scant information of the circumstances.

The bodies were declared to be those of Grand Duke Serge Michaelovitch, Prince Ivan, husband of Princess Helene, daughter of King Peter of Serbia; Prince Igor, brother of Prince Ivan; Grand Duchess Elizabeth, a sister of the late Emperor, and three servants who shared the fate of their employers, whom it is alleged were killed, and their bodies thrown into a coal mine near Perm. The discovery of their whereabouts was said to have been made by a commission, appointed by Admiral Kolchak last summer.

Ask Britain to Accept Mandate

Labor Party Calls on Premier Lloyd George to Accept Power in Palestine

London.—As a result of meetings of the executive committee of the Labor party and the parliamentary committees of the trades union congress, a resolution has been forwarded to Premier Lloyd George at San Remo urging the British government to reaffirm its decision regarding the Jews in Palestine by accepting a mandate under the League of Nations for the administration of Palestine, with a view of it being reconstituted as the national home of the Jewish people.

Ottawa Members Want Larger Indemnity

No Increase Has Been Granted Since Confederation to Members Of Parliament

Ottawa.—There is a strong agitation on foot among the members of parliament on both sides of the house for an increase of the sessional indemnity to \$4,000 a year. Living in Ottawa has become so high in recent years that the members complain they are unable to make ends meet on an ordinary session. There are some members also who do not regard the sum they receive so much in the light of an indemnity as a salary, because their parliamentary emolument is their sole or main means of support. They are naturally strong for an increase, but the feeling is general among all the members that the present indemnity is insufficient.

The case of ministers of the crown is even more pressing. There has been no increase in the salary of ministers since Confederation, and the present salary of \$7,000 is declared to be insufficient to enable even the most careful minister to make ends meet. A recent appointee to the cabinet remarked that he had run behind \$5,000 on the year and that the attractions of office coupled with suggestions of agitators that the members of the government were "a bunch of grafters" did not seem sufficiently attractive to induce one to long remain in the service of his country.

But while the need of an increase is recognized the present does not seem a propitious time to make the move. The fact that the appeals of the returned men for increased gratuities have had to be repeatedly turned down is probably the fact operating most strongly against the government hearkening to the appeals of the members.

Goods From U.S. Must Be Prepaid

Montreal.—Notices have been sent out by all United States railways sending goods to Canada that on and after May 1 all consignments to Canada must be prepaid in U.S. currency.

British Labor Party Depart for Russia

Decline Responsibility for Newspaper Correspondents Who Intend To Go

London.—The delegation of the British Labor Party which will go to Russia to investigate the general situation there will be composed of Messrs. Philip Snowden, Ben Turner, Robt. Williams and Tom Shaw. Williams, who is regarded as the most radical member of the delegation, has long advocated direct action. He was a leading figure in the activities of the triple alliance—the railway men, miners and transport workers—during the railway strike and the recent threatened miners' walkout, when the most vital factor was whether Williams, as head of the transport workers, would bring them into the controversy.

The laborites decline to assume responsibility for the accompanying newspaper correspondents, but it is stated that representatives of some of the London papers are planning to start and take chances of being stopped from entering Russia.

Amundsen in Siberia

Last Reported in August When Ship Was Drifting

Nome, Alaska.—A wireless flash from Anadir, Siberia, announces the presence there of Roald Amundsen, the explorer, the details and manner of his arrival are not given. A message from Anadir suggests the explorer may have reached that point with a vessel.

Last August Roald Amundsen was reported to be drifting in his ice-laden schooner, Maud, somewhere north of western Siberia. Nothing has been heard from Amundsen directly since September 1, 1918, when his schooner was reported to be taking oil for her motors at Dixsod Island, a White Sea point.

From the White Sea Amundsen expected to drift east with the ice to the new Siberian Islands which lie in the Arctic off Siberia. At the new Siberian Islands it was believed the drift would carry him toward, if not across the pole. The explorer is reported to have carried two airplanes as part of his equipment. He expected to use these if he found the drift would not carry him across the "top of the earth."

Mobilize Teams for Seeding

Alberta May Adopt Suggestion Of Sending City Horses to Help On Farms

Calgary.—Mobilization of all available teams from the cities of the province to assist in seeding operations is being planned by the U.F.A., in co-operation with the southern boards of trade. The mayor and commissioners and many business men have approved of the idea. It is estimated that seeding could be assisted to the extent of 2,600 acres a day in southern Alberta, if 200 teams could be secured from Calgary, Lethbridge and Medicine Hat.

Strikers' Meeting Is Broken Up

Gathering Broke Up in Uproar After Leaders Had Been Howled Down

Chicago.—John Grunau, leader of the outlaw Chicago yardmen's association, who was released from jail at Joliet, Ill., after friends had deposited \$10,000, was expected to call a new meeting of striking switchmen to end the walkout, following the tumultuous termination of a mass meeting, called by a committee of strike leaders to vote on returning to work. Declaring they had been "sold out" and hooting down attempts of strike leaders to appeal to them to end the walkout, several thousand strikers bolted a mass meeting when it was announced Grunau, who was to have presided, was still in jail.

The gathering broke in an uproar, Tumult reigned inside and outside the hall for half an hour, but there was no violence and no arrests were made. Shannon Jones, R. S. Murphy, and M. J. Kenney, who called the meeting, urged the strikers to return to work and await action of the railroad labor board on their demands for increased pay.

"I hope that you can see that it won't do any good to fight the government," Jones told the strikers. "You can fight the railroads, but not the United States, and you are fools to try."

On the rostrum was an American flag. Jones touched it constantly as he spoke. As Murphy began to speak he was greeted with cries of "Where's Grunau? We want Grunau!"

Great Britain Helps Argentine

Buenos Ayres.—La Razon, commenting on the fact that the British government is loaning Argentina \$50,000,000 to pay off a loan of the same amount by New York bankers, after the latter had refused to renew it, criticizes the lack of indulgence on the part of the north American bankers. The newspaper says this means that Argentina in future financing will turn again to England, "the traditional indulgence mecca of our country."

League Decides That Armenia Will Be Free

U.S. And Britain Would Trade With Russia

Sir Auckland Geddes Declares Progress Is Being Made Cordially

Washington.—Negotiations between the State department and the British foreign office, concerning the proposed re-opening of trade relations with soviet Russia are proceeding and progress is being made cordially. Sir Auckland Geddes, the new British ambassador made this announcement. The question of the recognition of the present government of Russia is entirely apart from these conferences, it was said.

It is the purpose of Britain and America to arrive at an agreement as to means of expanding the trade already being carried on with Russia through Scandinavian countries and by way of Finland and Lettvia. While the plan to be adopted has not assumed shape it is regarded as probable that the old license system will be abandoned entirely or so liberalized as to leave but little restraint on the channels of trade.

It is fully understood in London and Washington that in furtherance of its determination to force political recognition at the hands of the western European nations and America, the soviet government will do everything possible to hamper such trade development along independent lines. The negotiators are believed to feel however, that Lenin will scarcely be prepared to refuse the demands of his own people for the essentials of life which are held out to them in this way.

Investigate in Siberia

Inter-Allied Railway Commission Will Inquire Into Complaints Against Japan

Vladivostok.—Decision to investigate recent events in Siberia has been reached by the inter-allied railway commission here. This action was a sequel to many complaints that the Japanese military commander in Siberia had violated the allied military agreement.

"The Japanese committee," said a resolution passed by the commission, "are asked to obtain from the Japanese commander statements as to whether it recognizes the allied railway agreement in Siberia and whether it will harmonize its activities with those of the Allies' commission."

The commission also sent an address to the provisional government here asking it to induce railway workers to return to their posts, "in the interest of the Russian people."

Would Accept Gross Tax Sale

Winnipeg.—The levy of a gross sale tax on all retail sales will be accepted by the retail merchants of Canada in lieu of war profits tax, J. A. Banfield, Canadian president of the Retail Merchants' association, has announced. Mr. Banfield has just returned from Ottawa, where he has been meeting the government and the Dominion executive of the Retail Merchants' association in regard to retail taxation and other matters of legislation for merchant men.

Promise to Finish Hudson Bay Road Soon as Possible

Ottawa.—Assurance that the completed portion of the Hudson Bay railway would be put in good repair this year and that the government would carefully consider the early completion of the road, was given by Sir George Foster to the special delegation of members of parliament, senators and representatives of western boards of trade, which waited upon the government to present the case for the completion of the road. Members of the delegation expressed satisfaction with the result of their interview and their confidence that the completion of the road would not be neglected.

Sir George Foster left the impression that in addition to the repair work promised, some additional track might be laid this year, possibly as far as Limestone River. The government had never intended to abandon work on the road, he said. Motives of economy had compelled the government to suspend construction in 1918, and the government proposes to finish the road as soon as possible. He promised to consult with the minister of railways regarding early completion of the road.

Dr. R. M. Blake, M.P., for North Winnipeg, chairman of a special cas-

San Remo.—Armenia is to be treated as an independent state. This decision has been reached by the supreme council, because neither the United States nor any other power was willing to accept a mandate over the country.

The boundaries of Armenia have not yet been defined and the new republic will probably be rather contracted as it is believed that the smaller the country the more easily it can take care of itself, because if too many Turks are left they might overthrow the government.

The council sent a vague letter to the league asking it to take the mandate. The league at a meeting in Paris, replied favorably but called attention to the fact that it had no funds and no staff, suggesting that the council should authorize an international loan guaranteed by the council.

It was pointed out that the new states ought not to be burdened with a large debt to begin with and the council was also requested to eject the Turkish forces from the borders of the new state. These proposals have not been accepted by the council. It is understood that if the league had been provided with money it might have arranged with neutral governments to exercise the mandate under supervision of the league. Among the smaller powers so mentioned are Canada especially, and if Canada would not accept, then Sweden or Spain might accept.

The council leaves Smyrna under the suzerainty of Turkey, but places the city and province under the administration of Greece.

Canadian Missionary Killed

Dr. Menzies of Toronto, Slain While Defending Women in China

Vancouver.—A serious situation has been created in Honan, China, as a result of the murder by bandits of Dr. James Menzies, M.D., C.M., and Chao Tih, the military governor, has been severely censured by the Pekin authorities for his inability to protect foreigners' lives and property. This information has just been received by the World.

Dr. Menzies came from Toronto, where his wife is now residing, and for more than 20 years was a missionary in China. He expired shortly after being wounded, when defending some women missionaries against robbers.

Japanese Losses in Siberian Battle

London.—The Japanese casualties in the fighting in Siberia which resulted in their capture of Nikolik and Khabarovsk from the Russians totaled 2,000, according to reports received in official quarters here.

Some of the Russian detachments escaped to the hills but others were captured and disarmed, the advices state.

Britain May Sell Warships

London.—Walter Hume Long, first lord of the admiralty, replying to a question in the house of commons today, said the government contemplated selling some warships to foreign countries. Pending the outcome of negotiations, however, he added, particulars could not be divulged.

G. W. V. A.

A regular meeting of the La-
combe Local G.W.V.A. was held
at the Club Rooms on Monday
evening, April 19th, with about
fifteen members in attendance. The
minutes of the last regular meet-
ing were read by the secretary
and accepted as read. Business
communications received since the
last meeting were then read and
tabled. The secretary was in-
structed to obtain fifty copies of
Bulletin number 3 of the Domini-
on command. Comrades of Morn-
ingside reported that they had
obtained a lot free of taxation for
all time and had obtained suffi-
cient funds to erect a memorial
hall. The secretary was asked to
obtain publicity if possible for Re-
solution No. 11 sections 1-10, pass-
ed at the last Dominion Conven-
tions, also the aims and objects of
the organization. At this point
the meeting adjourned until the
regular meeting night, May 3rd.

**Bentley Would
Remember Heroes**

Sir: We have in times past been
wont to speak with pride and
satisfaction of the support given to
and of the part played in all
good works by the people of our
Village and district of Bentley.

We are proud of our efforts in
Church and Mission Work, and of
those on behalf of the Red Cross
and the Belgian Relief Fund.

How well we did in the war and
Victory Loans. What wonder-
ful crops were raised to help on
the war.

Some of us supported Conscrip-
tion. A number were sent to the
war. But of those who went,
some can never return. With the
return of peace and peaceful pur-
suits for all are we to forget these
absent ones?

Is it not high time for us to show
by means of monument, tablet or
other slight memorial, that we
would keep fresh the memory of
their supreme sacrifice? We owe
the dead a debt we cannot pay.
We can not do less than honour
their memory.

W. Grant.

Dear Editor

In the issue of your paper of
April 7th, 1920, I asked twenty
questions and so far no person
has given a reply.

Surely some of the Medical men
of Lacombe, and particularly the
Chiropractor, will favor us with
an answer as I am desirous of
knowing the truth regarding same.

Yours truly,
A Searcher of Truth.

Everyone interested in Tennis
is invited to a meeting in the
Town Hall on Wednesday evening,
April 28th at eight thirty p.m. to
reorganize the club.
